Legend:

<: less than

>: greater than

#: none of the parameters are detected

LOQ Limit of quantification

*) : Not included in the accreditation

n.d: not detected

NM: non-measurable

Urel (%): The expanded relative measurement uncertainty, with a coverage factor 2. For results at the level of detection limit the uncertainty might be higher than reported.

°): Uncertainties of microbiological parameters are given as a logarithmical standard deviation

The test results relate only to the items tested.

The report shall not be reproduced except in full without the written approval of the testing laboratory.
